COMPUTER WEEK ACTIVITIES

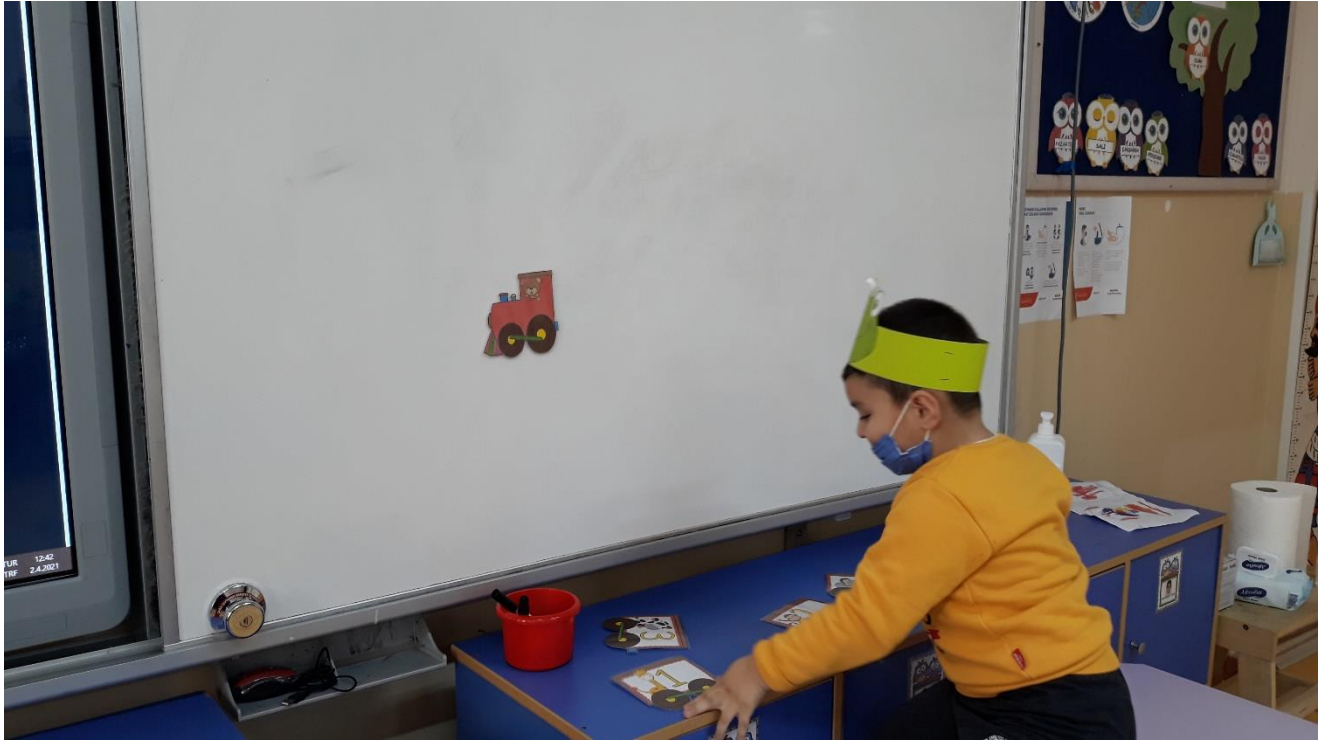

Turkey Computer Week Activity 1 :

We use smart board / computer for this activity. Computer asks from pupils to choose the right number between two / three choices visually shown on the screen. Pupils choose the right choice by clicking to the right choice and computer response if the choice is right or not. At the end of the activity on computer, pupils practice the number by sticking numbers train wagons in right order and draw right number of circles/shapes on the wagons.

Turkey Computer Week Activity 2 :

We use smart board / computer for this activity. Computer asks from pupils to choose the right choice for different questions both visually with shapes and sounds. Teacher reads the questions to pupil and pupil answers by clicking to the choice and computer response if the choice is right or not.

Turkey Computer Week Activity 3 :

We use smart board / computer for this activity. Computer asks from pupils to choose the right choice for different questions both visually with shapes and sounds. Teacher reads the questions to pupil and pupil answers by clicking to the choice and computer response if the choice is right or not.
